Lexington Police Department Continues “Keep Cool” Program for summer 2010

The Lexington Police Department is continuing their efforts to assist town citizens to deal with the hot summer weather. If you are in need of a fan and are a citizen of the Town of Lexington, please come by the police department for assistance. Community Action Team (C.A.T.) members are available to assist citizens who need to pick up fans Monday through Friday, from 9:00am to 5:00pm at the Lexington Police Department, located at 111 Maiden Lane.

For additional information please contact Cpl. Doug Lee at (803)358-1504 or the Lexington Police Department at (803)359-6260.

Beat the Heat!

The Town offers spray features at two of its parks. **Willie B. Caractor Park** located on Hendrix Street behind Lexington Medical Center and **Corley Street Park** located just off North Lake Drive on Corley Street.

Planning to Dig?

At least 3 business days prior to digging, call Palmetto Utility Protection Service P.U.P.S. by dialing **811** or (888) 721-7877. or visiting www.sc1pups.org

Know what's below.
Call before you dig.

It is important to “Call Before You Dig” or “Click Before You Dig!” By making one simple FREE phone call or by simply filling out the online form you can protect you and your community from costly fines, repairs, personal injury or inconvenient outages.

GREEN CORNER

Adopting the use of reusable bags for one's entire life can “save” (reduce) the need for over 20,000 plastic bags

An estimated 4 billion plastic bags end up as litter each year worldwide

In landfills, plastic bags sit for roughly 1,000 years before decomposing and release toxic chemicals into the soil during decomposition

"We all live downstream."

DID YOU KNOW...

That the storm drainage system does not end at a treatment facility? Storm drains empty into local waterways. Anything thrown or dumped into a storm drain ends up in a local creek, river, stream or lake.

Help the environment by taking responsibility for your runoff and encouraging others to do the same!

**HOW CAN YOU BE A PART
OF THE SOLUTION?**

- ◆ Properly dispose of pet wastes
- ◆ Do not use storm drains for disposal of **ANYTHING** (only rain down the storm drain).
- ◆ Use lawn/garden chemicals sparingly or not at all.

- ◆ Properly dispose of oil and household chemicals.
- ◆ Repair leaking vehicles.
- ◆ Control soil erosion on your property.

For more information visit

www.clemson.edu/carolinaclear

The Town has recently tagged the storm drains in Park Side Subdivision and along with the Lexington Countywide Stormwater Consortium will continue work tagging all storm drains to be a reminder that "we all live downstream".
